IQAC –Feedback Report

Principal Sir,

I am to bring your attention about the following observations after analysing the online feedback submitted by students till August '20, 2022.

1. Majority of the students want the gymnasium of the college to be fully operational. So necessary instructions may kindly be issued to concerned members of staff to initiate the process.
2. More than half of students have not participated in self defence training programme. So awareness may be created among students to participate in the programme in large numbers.
3. Most of the students are not aware of the existence of anti-ragging cell in the college. So online /offline display of the same and its provisions may kindly be circulated among the students.
4. Since the college canteen is not yet opened after covid-19 pandemic, so majority of the students complain about the same. So appropriate steps may kindly be initiated in this matter at the earliest for the benefit of staff and students.
5. Students are not satisfied with the drinking water facility. So adequate number of water purifier cum cooler machine may kindly installed at prominent locations of the building for regular use of the students.

IQAC-Students Feedback Method

The IQAC, SBR Govt. Women's College took an initiative to collect students' feedback in every academic year with a given format in online methods using Google form. The focus of the students' feedback is to cover the different aspects of college e.g. overall teaching learning, campus amenities, infrastructure (academic and administrative) facilities as well as teacher's appraisal by the most important stake holders i.e., students. There were all about 23 items on teaching-learning, campus amenities and infrastructure facilities and on teachers' appraisal. Each item of the questionnaire was subject to 5 scales of opinion viz., A (Excellent), B (Very Good), C (Good), D (Average), E (Below Average). All the students (both UG and PG) are asked to put A, B, C, D or E against each item freely as per their perception and honesty. The questionnaires were distributed among all the students at the end of each year.
